Present Land Use/Zoning/General Plan Designation:

State Water Project facilities; developed recreational areas, lake bed, dam and spillway.

Project Description: (please use a separate page if necessary)

DWR is proposing to improve an existing access route to alleviate safety and security concerns with the public crossing the Lake Oroville Spillway bridge to access the recreational Spillway Boat Ramp and Day Use Area. This proposed access, Lake Oroville Permanent Lakeside Access Road, will be improved and constructed so it can be used for public access to the boat launch for an estimated six months of the year reducing security costs and improving public safety. The road project consists of clearing and grading the site; excavation of soils and rock; placement of aggregate base, concrete, drainage culverts, and rock slope protection; and the installation of traffic safety rails, barriers, and signage. The Proposed Project also includes an erosion repair in an outfall channel adjacent to the Boat Ramp parking lot.

Note: The State Clearinghouse will assign identification numbers for all new projects. If a SCH number already exists for a project (e.g. Notice of Preparation or previous draft document) please fill in.

Reviewing Agencies Checklist

Lead Agencies may recommend State Clearinghouse distribution by marking agencies below with an "X".
If you have already sent your document to the agency please denote that with an "S".
